

Your Data in Your Control

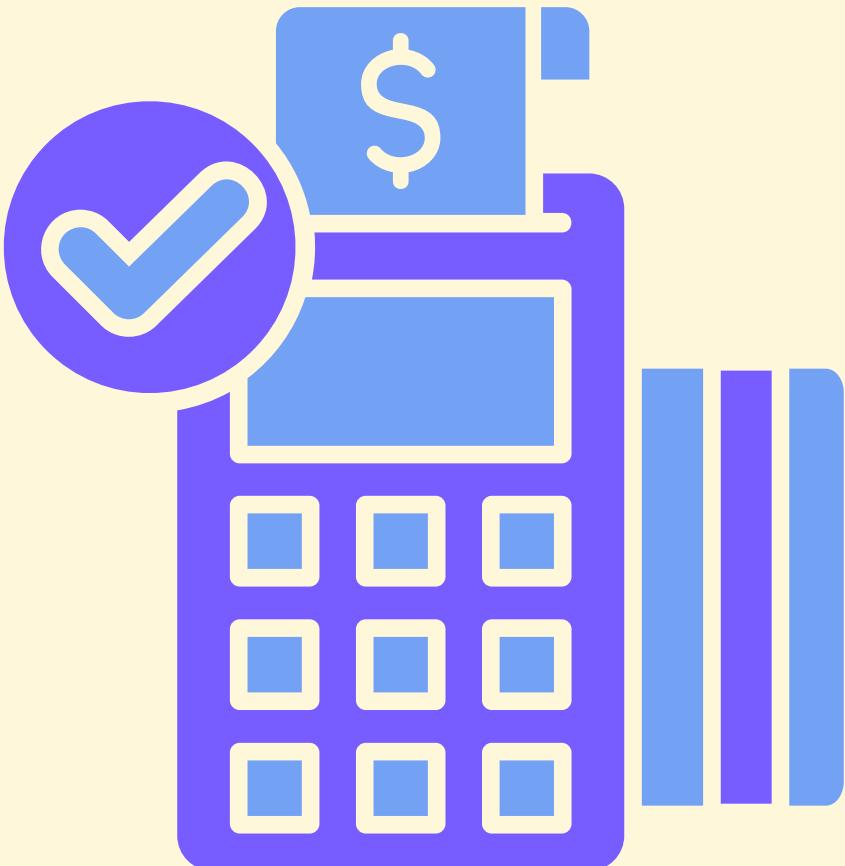

# Privitty Use-Case

**Messaging App**

[www.privittytech.com](http://www.privittytech.com)

# Retail & POS

**Where :** Shops, malls, supermarkets, electronics stores

**Why :** Send receipts, invoices, warranty cards, coupons

**Use-Case:**

*Customers scan a QR → get a temporary chat → receive bill/warranty → chat auto-expires*

- No need for customer to share phone number
- Good for tourists or privacy-sensitive shoppers
- Perfect for POS printers, kiosks, self-checkout
- Bills and warranties can be view-only, non-forwardable, and auto-revoked after expiry

# Healthcare

**Where :** Pharmacies, clinics, teleconsultations

**Why :** Patients require confidentiality

**Use-Case:**

*Temporary chat for prescriptions, test reports, or doctor Q&A*

- Avoids sharing phone numbers
- HIPAA/GDPR-friendly
- Patient remains anonymous
- Medical documents are accessible only to the patient and provider, with time-bound access

# Secure Internal Business Communication

**Where :** Banks, defense, government, audit teams

**Why :** Highly confidential information must not be tied to PII

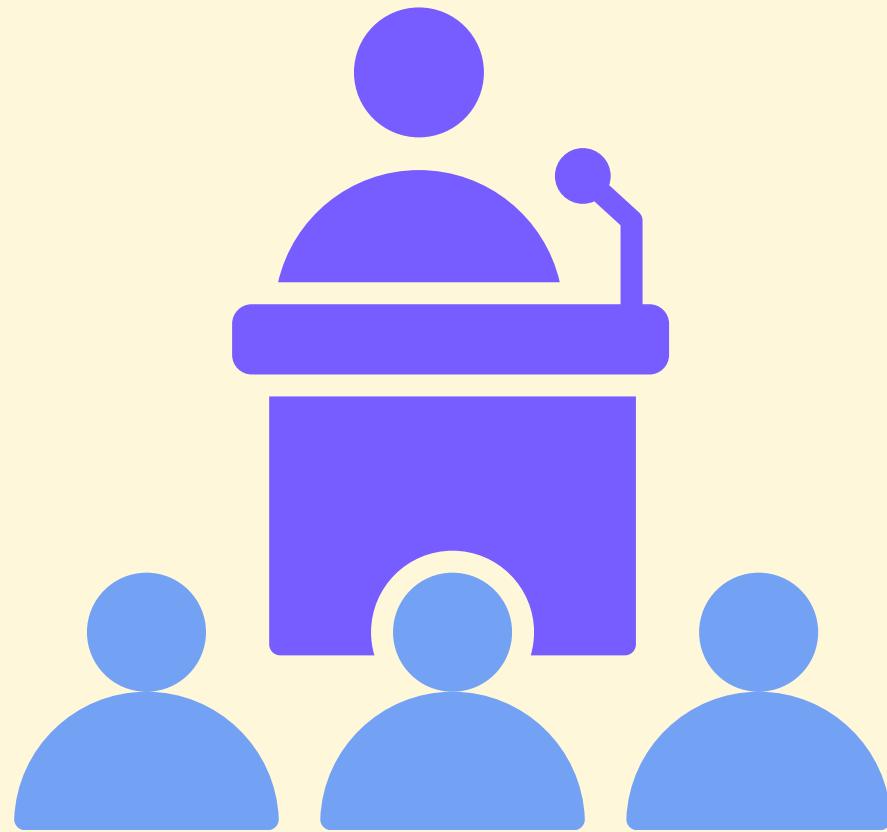

**Use-Case:**

*Use-and-throw accounts for:*

- Audit teams
- Forensic units
- Cyber incident response
- Vendor contractors
- Temporary staff access
- Sensitive chats and files are accessible only to assigned roles and time windows

# Events & Conferences

**Where :** Trade shows, ticketed events, corporate events

**Why :** Temporary identity for event-only communication

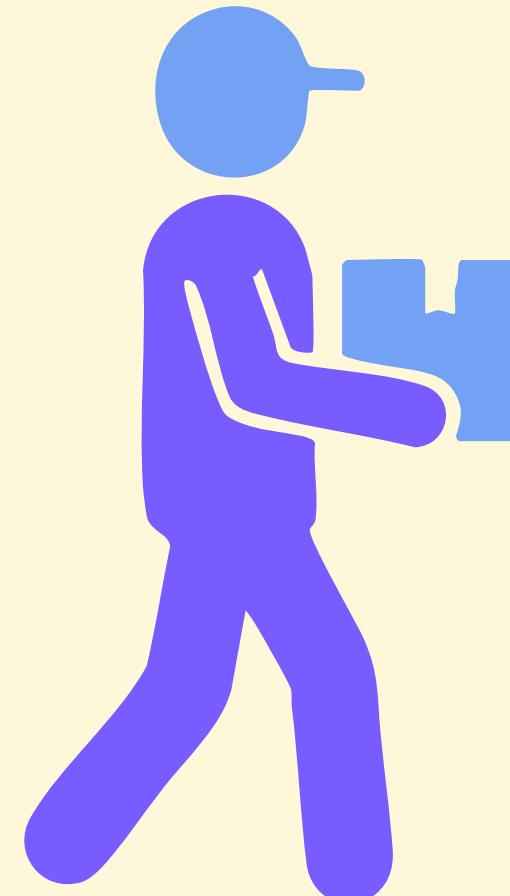

**Use-Case:**

*Event organizers create a chat room for each participant*

- *Access only during the event*
- *Share schedules, venue maps, announcements*
- *Auto-expire after the event ends*
- *No attendee onboarding friction*
- *Event content is accessible only to registered participants and disabled after the event*

# Delivery & Logistics

**Where :** Courier companies, food delivery apps, warehouse communication

**Why :** Delivery agents don't want to reveal their personal number

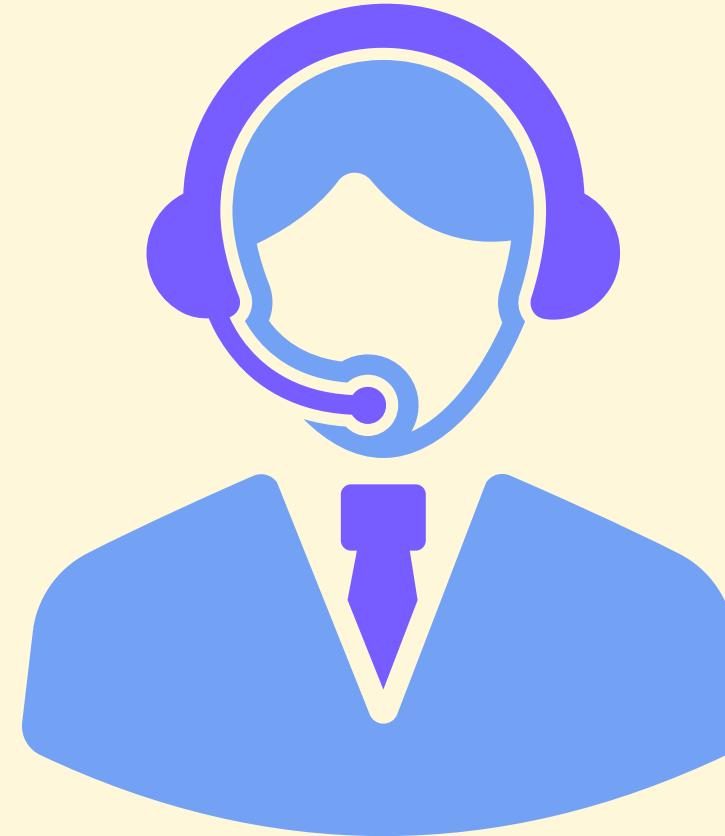

**Use-Case:**

*A temporary chat opens between customer and delivery agent for that one delivery*

- Auto-deletes after delivery
- Avoids spam
- Protects agent's and customer's privacy
- Chat access is limited to the active delivery and revoked once delivery is complete

# Customer Support Without Revealing Identity

**Where :** Courier companies, food delivery apps, warehouse communication

**Why :** Delivery agents don't want to reveal their personal number

## Use-Case:

*A temporary chat opens between customer and delivery agent for that one delivery*

- Auto-deletes after delivery
- Avoids spam
- Protects agent's and customer's privacy
- Chat access is limited to the active delivery and revoked once delivery is complete

# Public Service

**Where :** Government counters, railway stations, hospitals

**Why :** People hesitate to give numbers to govt officers

**Use-Case:**

*Anonymous chat ticket system for:*

- FIR follow-up
- Passport queries
- Railway helpdesk
- Hospital queue management
- Case-related chats are accessible only to the citizen and assigned officer

# Micro-Teams & Temporary Projects

**Where :** Courier companies, food delivery apps, warehouse communication

**Why :** Delivery agents don't want to reveal their personal number

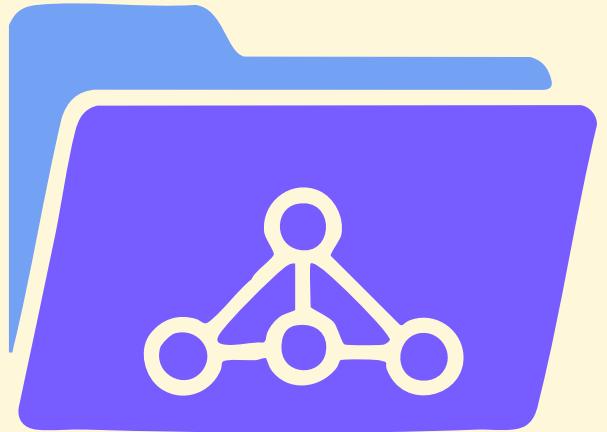

## Use-Case:

*A temporary chat opens between customer and delivery agent for that one delivery*

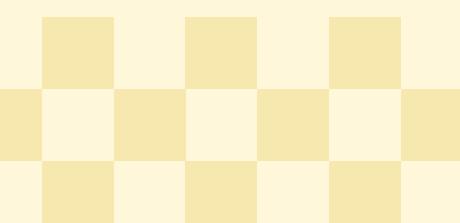

- Auto-deletes after delivery
- Avoids spam
- Protects agent's and customer's privacy
- Chat access is limited to the active delivery and revoked once delivery is complete
